Description

Level: Medium

The objective of this training unit is to improve the positioning of the pivot. Following warm-up and a short game, the players practice passing to the pivot under difficult conditions and with different passing variants during the ball familiarization and goalkeeper warm-up shooting phases. Afterwards, there will be an individual exercise regarding the pivot's screening followed by two small group exercises in which the interaction with the back position and wing players will be practiced. In a closing game, the players should implement what they practiced before.
