Description

Level: High

The objective of this training unit is to practice the quick adjustment from defense play to fast break initiation. Following the warm-up phase with a coordination run exercise and the ball familiarization phase, the goalkeeper warm-up shooting combines a preparatory defense exercise and a series of shots for the goalkeeper. During the two subsequent defense exercises, the players practice quick adjustment from defense work to fast break countermovement. A 4-on-4 game and a sprint contest complete this training unit.
