Description

Level: Low

The objective of this training unit is to improve the passing precision during running movements, in particular. Following warm-up consisting of combined running moves and passing variants and a short game, the players practice passing while running at full speed during the ball familiarization phase. The goalkeeper warm-up shooting and the subsequent series of shots also focus on playing passes while running at full speed. A second series of shots combines double passes on a defined running path with quick passes in direction of the goal. Finally, the players practice playing precise passes under pressure in a small group game and a closing game.

Product number: 100002

Format: PDF

Date of Publication: 2018/06/01

Contents: (time individual exercise/total time in minutes)

- Warm-up/Stretching (10/10)
