Description

Level: Medium

The objective of this training unit is to improve the positioning of the pivot. After warm-up and a short game, there will be a goalkeeper warm-up shooting from the pivot position. The players practice the pivot's pushing through the defense in an individual offense exercise. Afterwards, there are two exercises in which the players practice positioning and the Russian screen in small groups against defensive and semi-offensive defense players. The players should implement the variants in the closing game.
